## Alpha-Number Stamp Size Chart

Figures are shown actual size so you can determine maximum number of bands for a given width. If you wish to include a date set, consider that a date set is equivalent to 6 figure bands "left to right".

Suppose that you want a stamp with 8 interchangeable characters in a line so that the stamped impression is approximately 3" wide. Reading down the 3" line in the scale below, you find that the number 4 size Gothic stamp has 8 characters in that width. Therefore you should order a size 4 stamp with 8 bands.

*Shaded area indicates sizes and number of bands available on self-inking stamps (bands on No. 3 size conventional self-inking stamps contain 11 characters.)*
